Time to get up get up
Get get get get up

Stranded
I've been watchin while your burning bridges, around
you
And I Think your helpless,
Broken by the alibi's and promises that wernt true

But it's not all bad
You no that you can bring it all back
Reach out and find what you once had
You'll see if you read all the signs

[chorus]
I can see that your in need of some protection
Don't fret don't cry
Just go ahead and change it
Just gota face it
Everybody needs a little high
I can make you the centre of attention
Let me dry your eyes
It's kinda been rough lately
Live it up baby
Everybody needs a little high

Oh your life is wasted,
The colours in your heart are slowly fading, inside you
Branded by the words you heard, that left you jaded,
confused

But it's not all bad
You no that you can bring it all back
Reach out and find what you once had
You get where you want if you read all the signs

[chorus]

All your mistakes are easy to change
Don't let regrets stand in your way
Your intuition on which way to take

Woah, yeah

[chorus]
