I 'm gonna share with you my darkest secret, tell you
what I want
I'm gonna give to you what I've been keeping locked up
far too long
Girls on girls
Telling me what's good for her
Girls on girls
Just what she's been doing for her
Boys on boys
Making it come true for her
Boys on girls want girls on girls
I am there with you when you hit the spot
Understanding why
The more you tell, the more I want to get inside your
mind
Girls on girls
Telling me what's good for her
Black and white girls hanging on the rear of her
Boys on boys
Making it come true for her
Boys on girls want girls on girls
Girls on girls
She's telling me what's good for her
