Some days when I was young and I was dressed up as I  
do  
Not looking like the rest but, what I felt as cool  
They said that I was the one who was playing a fool for  
attention  
I'd stand out the way that I do

They use to pick and tease not take me seriously  
But see I did not care cos we were only kids  
So back then they did laugh and make fun out of me  
But developing my style, looking right as I did.

They say that I don't eat  
And that I don't get no sleep  
They say that I ain't cool and that I look like a freak  
I said I ain't you and you are not me  
We are who we are let us be

Here are reunion and I meet them same old kids  
Don't recognise their kids but do remember me  
So back then they did laugh and make fun out of me  
But developing my style looking right as I did.

They say that I don't eat  
And that I don't get no sleep  
They say that I ain't cool and that I look like a freak  
I said I ain't you and you are not me  
They say that I don't know and that my mind is too  
weak  
They say my body's slow and say I ain't got no beat  
I said I ain't you and you are not me  
We are who we are let us be

So my story to you is stand up and be proud  
If you're quiet then that's cool  
If your not shout it loud

They say that I don't eat  
And that I don't get no sleep  
(It's all about foolish kids)  
They say that I ain't cool and that I look like a freak

They say that I don't know and that my mind is too  
weak  
They say my body's slow and say I ain't got no beat  
I said I ain't you and you are not me  
We are who we are let us be  
I said I ain't you and you are not me  
We are who we are let us be

They say that I don't eat  
And that I don't get no sleep  
(It's all about foolish kids)  
They say that I ain't cool and that I look like a freak  
They say that I don't know and that my mind is too  
weak  
They say my body's slow and say I ain't got no beat  
I said I ain't you and you are not me  
We are who we are let us be  
I said I ain't you and you are not me  
We are who we are let us be

What a foolish thing to say
