As I sit alone, I can dream of anything
I'll fly into the view, scene from the scaffolding
Jumbo sweeps away, I'll hang on for my dear life
Hawaii here I come
Down from the scaffolding
While I'm waiting, waiting there for you
Upon the scaffolding
I can be a star, I can shoot those lights
And reach out so far
Upon the scaffolding
I can be a melt away, a melt away and drift away heart
I can be a melt away, a melt away and drift away heart
Up on the scaffolding
Into love again, I can fall for anyone
I ride into the view, scene from the scaffolding
While I'm waiting, waiting there for you
Upon the scaffolding
I can be a star
I can shoot those light and reach out so far
Upon the scaffolding
I can be a melt away, a melt away and drift away heart
I can be a melt away, a melt away and drift away heart
Upon the scaffolding
