"Somewhere Out There"

Visit "[Somewhere Out There](#)" on MotoLyrics.com

Lately, I think I'm going crazy
I want someone to take me to another world
Crossfire, I'm caught up in the crossfire
Been living with a live wire, take me down to earth
Somewhere out there is a life I could use
I can see with my x-ray eyes
Somewhere for me with a love I can use
I can see with my x-ray eyes
It's all in me, it's over me, it's all for me
Lately I think I'm going crazy
I want someone to save me before I go quite mad
Crossfire, I'm caught up in a crosswire
I'm living with a live wire soon I will get burned
Somewhere out there is a life I could use
I can see with my x-ray eyes
Somewhere for me that is blown with a kiss
I can see with my x-ray eyes
It's all in me, it's all in me, it's all for me
Somewhere out there is a life I can use
I can see with my x-ray eyes
Somewhere for me with a light and a fuse
I can be here with my device
It's all in me, it's all for me, it's all in me
