I like the way she dances, I like the way she looks
I like the way she poses in a photo shoot
I like the way she talks, I like her sexy ass
If it possible that we have met
I think I saw you somewhere before
Maybe on a CD cover and a store, maybe on TV or in
the magazine

You remind me of a star, you remind me of a star
Girl you remind me of a star, you remind me of a star
You remind me of a star (star, star, star, star...)
You remind me of a star yeah
Girl you remind me of a star oh oh oh !
You remind me of a star hey ! You remind me of a star
hey !
You remind me of a star hey !

I like the way she dances, I like the way she looks
I like the way she poses in a photo shoot
I like the way she talks, I like her sexy ass
If it possible that we have met
I think I saw you somewhere before
Maybe on a CD cover and a store, maybe on TV or in
the magazine

You remind me of a star, you remind me of a star
Girl you remind me of a star, you remind me of a star
You remind me of a star (star, star, star, star...)
You remind me of a star yeah, girl you remind me of a
star
You remind me of a star hey ! You remind me of a star
hey !
You remind me of a star hey !

What's your name ? You remind me of a star hey !
