Tell me baby, what have I done wrong  
Tell me baby, what have I done wrong  
Lord I thought I'd be happy, but my trouble just begun

When I had money, I used to see you all the time  
When I had money, I used to see you all the time  
Now I'm down, and you won't pay me no mind

Well you even tell me baby that you don't want me no  
more  
Well you even tell me baby that you don't want me no  
more  
But when you ain't thinkin' woman, you're gonna reap  
just what you sow

It's hard to love, people when you can't be loved  
It's hard to love, people when you can't be loved  
I guess I'll go by myself, look to the good Lord above

I'm just sittin' here wondering, how can you treat me so  
I'm just sittin' here wondering, how can you treat me so  
Still I loved one time, but I'll never love no more
