This girls a beauty queen straight out the magazine
She got a fine ass body like maybellene
She playing hard tonight we on a first class flight
And she knows she knows
She's gunna hold on me tonight

She about to blow this club up wit a booty like that
She could win the world cup
There's a difference between me and these other
dudes
I'm scoring goals all night
While you guys are getting boo'd yeah
We could do whatever you like
I could take you to my crib on a saturday night
A pillow fight
I could lay right down and get close to you
Pop in a disney movie oh you've seen this one too?

Yeah been alaadin most of these days
With my old girl jasmine missing these days
Someone else has that I wave goodbye deuces up
I'll be glad when
I'm posted up courtside madison square spike lee
Off to japan now supersize me

This girls a beauty queen straight out the magazine

She playing hard tonight we on a first class flight
And she knows she knows
She's gunna hold on me tonight

It's kinda funny how time flies
It's been three months and she's why
I'm in the moment waste no time
Rollin deep in my ride
Back up in the club n I check the scene
Got a fine ass body maybellene
Out this world from the MIB
High octane energy got the TNT
Get it live from 9-3
You got the shine you can come and dine with me

Sexy

You're a dime you're a one of a kind
I'm impressed best-dressed with a fine body
Like mona lisa a fashionista
Never thought a guy like me could meet ya
You give me fever at your leisure
Never thought a guy like me could please ya

Yeah been aladin most of these days
With my old girl jasmine missing these days
Someone else has that I wave goodbye deuces up
I'll be glad when
I'm posted up courtside madison square spike lee
Off to japan now supersize me
