Verse 1:

Not too far from the eclipse,
I fell into a black abyss.
Lonely, It's only, A matter of time.
I can't myself forget,
All the things that I regret.

Chorus:

We're all falling stars,
Covered stars.
Let the skies come down now,
Oh, come down now, oh.
We've come this far,
Don't let it fall apart.
Watch the skies come down now,
Oh, come down oh.

Verse 2:

I've grown tired of loneliness,
When you know it's you I miss.
Ice coldly, you've shown me, I was wrong.
Sometimes I wish we never met,
Because you make me such a mess.

Chorus

Bridge:

We're all falling stars,
Covered in scars,
Let the skies come down.
We're all falling stars,
Covered in scars,
Let the skies come down now, oh come down, come
down, come down.
The skies are falling,
My heart keeps calling,
Out for you.
The skies are falling, the skies are falling!
What am I to do?

Chorus x2
