#### Verse 1:

Take me away from here.  
I hear my thoughts too clearly now.  
Wake me when the sorceress is near & all that I fear is  
gone, is gone.

#### Chorus:

I'll search the forest for my fate,  
Battle anything along the way, 'til I find some peace in  
my mind.  
Only here do I feel brave,  
Oh, how I wish I felt this way all the time,  
Upon the other side,  
Where my reality lies,  
Where my reality lies.

#### Verse 2:

Break me,  
You can't when I'm here.  
A Paladin will she'd no tears, no!  
I'm shaking,  
The time is getting near.  
I can almost taste the fear I'm breathing out,  
Keep breathing out.

#### Chorus

#### Bridge:

Deep in my eyes,  
You can read all my lies.  
So, I'm learning to rise & how to fight.  
I'm saying goodbye to where my reality lies,  
I'm saying goodbye to where my reality lies.
