We sing the body electric
We sing the body electric
Sickness says hold on
Would you like to dance dance dance
Sedation says hello
I'm the new plan plan plan
Horror says get down get down get down
Terror says tell all tell all tell all
I know you know this is mutiny
I know you know this is secrecy
Nuclear babies blowing up bomb shelter
Homes mothers screaming from the skyscrapers help
x4
Helicopters lend a helping hand
Written on the walls (x2)
Catch us if you can (x2)
Like a million pieces come together right now
Like a million lights get bright now
Like a million lovers come together right now
Like a million fires get hot now
Make some damage we talked about com'on killers
shout shout (x2)
Horror says get down get down get down
Terror says tell all tell all tell all
I know you know this is mutiny
I know you know this is secrecy
Like a million lights get bright now
Like a million fires get hot now like a million lovers say
(x3) right now
What we do is secret a revolution
Well kept rendezvous with action inspired survival
Moments will make me moments will make you
Moments will make moments will make us
Like a million lights get bright now
Like a million fires get hot now
Like a million lives get live now
Like a million lovers say (x3)
Right now (x5)
