"Watch The Fall"

Visit "[Watch The Fall](#)" on MotoLyrics.com

Don't save me (x7) save me
Don't save me from the loose lips
Don't save me from the sinking ships don't
Save me i don't wanna don't save me i gotta (x2)
Words written like a diary
An audience of spies
These lines telling lies
This is my sacrifice
Verbs splattered like a suicide
An audience of spies
These lines telling lies
These words are dripping wet
Don't save me (x3) save me
This is the great divide
Your hand holds the knife
Our fire can light the night
Com'on child hold me tight
That's right and you know why that's right
And you know we watch the fall
(can you hear me now can you see me now
You can feel me now right right with now) (x2)
Don't save me (x4)
That's right and you know why
That's right and you know why
Why we watch the fall
(can you hear me now can you see me now
Can you feel me now right right with me now) (x2)
Don't save me
