I Wish Lunch Could Last Forever

-----

by Jimmy Buffett and Jay Oliver

The place down the block, the one with no clock  
Covert rendez-vous with you at the usual time  
I savor the scent of the fish on the grill  
Life's so spicy up on bar-b-q hill  
Looking good, you look so fine  
Waiter bring us one more bottle of wine

Chorus:

I wish lunch could last forever  
Make the whole day on big afternoon  
We'll begin with dessert a little coconut tart  
Mmmm tatses as sweet as a piece of your heart  
Cafe au lait beneath the Paris moon

Don't hide your eyes just wear your disguise  
Brazil's in the air I swear it feel like Mardi Gras time  
I savor the scent of that Anik Goutal  
As we walk in time to the cathedral bell

Repeat Chorus

I wish love could last forever  
Make the whole day a first time love affair  
We'll begin with a kiss, such a warm place to start  
Let me into your life let me into your heart  
Mea culpa mea culpa carnival is in the air
