Little boy
Why your tears
Rollin' down your face

On the street
In the rain
And your lost inside

Hear my voice
In your heart
Feel my warmth
I'll be your light

Little girl
Hide your fear
Rest assured your not alone

No escape
Hope is gone
But just listen for my call

Hear my voice
In your heart
Feel my warmth
I'll be your light

Hear my voice
In your heart
Feel my warmth
I'll be your light

Hear my voice
In your heart
Feel my warmth
I'll be your light
