Back in the room he's waiting for you
Back in the dark room he's waiting for you
Nursing a pain he designed and created for you
Back in the dark room he's waiting for you

Here comes the latest heartbreak line
Straight for the weakness he goes
The latest heartbreak line
This one was meant for you

Cry cry he'll try
Anything to get you
And he won't be pacified gonna whine like a child
'till he gets his time
with you
Crawling the floor there's no risk, there's no
distance to fall
Cry cry he'll try
Anything to get to you

Here comes the latest heartbreak line

Straight for the weakness he goes
The latest heartbreak line
This one was meant for you
The latest heartbreak line x3
This one was meant for you

Back in the room he's waiting for you
Back in the dark room he's waiting for you
Nursing a pain he designed and created for you
Back in the dark room he's waiting for you

Here comes the latest heartbreak line
Straight for the weakness he goes
The latest heartbreak line
This one was meant for you
The latest heartbreak line x3
This one was meant for you
