"Shake Shiver Moan"

No easy way to the place I'm going
Onto your street now the fear is growing
It's the shakes and the shivers and moans
This time I know
Through the shakes and the shivers and moans
Got to let you go

No easy way to the place I'm going
Up to your door now the fear is flowing
Through the shakes and the shivers and moans
Got to let you know
Through the shakes and the shivers and moans
Got to let you go

Shake, shiver and moan I'm ready for you
Shake, shiver and moan I'm ready for you
Now my aim is steady and true
Got to let you know
You can beg you struggle and cry
Got to let you go

Now my aim is steady and true
Got to let you know
You can beg you struggle and cry
Got to let you go

Fast or slow either way I'm going
Cruel or kind in my mind I'm going
Through the shakes and the shivers and moans x 3
Got to let you go

Through the shakes and the shivers and moans x 3
Got to let you go
