I can't be a fucking nice guy
And you knew this since the first time
You run away and say "I won't come back"
But tonight I'll just fuck your best friend

You always come back
Like a boomerang
In your bed
Blood, tears, sex and pain

You wanna me acting right
Walking in the line
You keep waiting for this
Every day and every night

I won't change
I won't promise you
This is my lifestyle
So what you gonna do?

You always come back
Like a boomerang
In your bed
Blood, tears, sex and pain
