I'll go to hell to find you  
I'll go anywhere and you know it's true  
Since you gonna away you feel so strayed  
You can't even recognize your face  
If you wanna stay here, make your best scene  
Now you're gonna pay for all your sins

I just wanna fuck you again  
I don't wanna be your boyfriend  
I just wanna fuck you more

I'll go to hell to find you  
I'll go anywhere and you know it's true  
Since you gonna away you feel so strayed  
You can't even recognize your face  
If you wanna stay here, make your best scene  
Now you're gonna pay for all your sins

I just wanna fuck you again  
I don't wanna be your boyfriend  
I just wanna fuck you more
