Pray,
I'll pray to take you
And make your day
I have to prove
How so good we can stay

I just say
That your day
Can be better
Don't be affraid

If something happen with you
Don't try cheat yourself
Don't make your life a hell

If something happen with me
I'll do me best to still there
You know me and I will try
One night to change your life

Sin,
Make you horny
And bring you to me
I will pray to everyday
We can do this

I will try
Survive untill tonight
Just one day
To change your life
