I don't believe when she tells me
I don't believe but I was just fuckin' out
She said everything in my bed
I have no idea what she's talkin' about

This fucking girl can make me feel insane
If you wanna come again
I can fuck you one more time
With a little bit of pain

This little girl can't be stopped
One thing like this it's so hard to find
She said everything in my bed
I have no idea what she's talkin' about

This fucking girl can make me feel insane
If you wanna come again
I can fuck you one more time
With a little bit of pain
