She always call to me
When I'm alone at home,
I'm twenty four hours
Holding the telephone,

I really don't know how
Cause She's always around
But today I know why
She's burning,

She always call to me
When I'm busy at home,
She wanna make my day
And party all night long

I really don't know how
Cause She's always around
But today I know why
She's burning,

She always call to me
When I'm alone at home,
I'm twenty four hours
Holding the telephone,

I really don't know how
Cause She's always around
But today I know why
She's burning,
