Survivin' in the chaos  
Shoots and revenge makes me fall  
Never count'd how many  
Men I've killed  
'Cause people outside  
Don't know how I feel

Sometimes' hard to live alone  
The razor of time cuts my bones  
Girls fight to get a piece of me

In my ride the wrong is right  
The road to hell is just in my sight  
The devil won't let me be

Statesmen crying  
'Cause they know what i feel  
Skulls splitted open  
That's the mark of my kills  
Before they die they recall  
Their bitter past  
The job here is done  
But this is not my last
