The reverend says Before ring the bell,  
"Listen to me girl, what I have to tell you,  
Go and take care with the world outside  
People on the streets can change your mind"

But I remember you stripping in the church  
I watched everything and I liked it so much  
Now I can see what you really are  
This is your first strip in the altar

Come here sister, this is your fuckin' time  
You pray everyday, but now your soul is mine  
I'm not here to listen confessions  
I wanna play with you and take you to my bedroom

Sister, please come here  
You can love the brothers, so you love me  
Sister, come here and pray  
You are in my game, and now you gotta play

Come here sister, this is your fuckin' time  
You pray everyday, but now your soul is mine  
I'm not here to listen confessions  
I wanna play with you and take you to my bedroom
