Today is a great day and please don't ask for me  
I just wanna get out of here  
And I'll have a great time

Tonight the party starts at midnight  
And I know how you'll feel alright  
Only when I come around

Maybe tonight you won't go to sleep  
And I know how you feel so good in here  
When I come I never do the same thing  
And I just wanna give the best for you again

If it really matters you'll come back and I  
Will not regret or cry because this is nice  
If only one more night you'll stay with me  
I will forget your name and I'll wake up alright

I'm so drunk that I can't see your face  
I've fucked everyone in this place  
But you where out of sight

Tonight the party starts at midnight  
And I know how you'll feel alright  
Only when I come around

Maybe tonight you won't go to sleep  
And I know how you feel so good in here  
When I come I never do the same thing  
And I just wanna give the best for you again

If it really matters you'll come back and I  
Will not regret or cry because this is nice  
If only one more night you'll stay with me  
I will forget your name and I'll wake up alright
