I know when you come down here
You thought about what you want to take from me
And your fame always before you
But I don't care anyway
What I have to say

That's the greatest part
I want you to feel and take
Fuck and use much more
And do it again

She says that making love
Is the most pretty thing
But I just wanna fuck
And make her feel insane

That's the greatest part
I want you to feel and take
Fuck and use much more
And do it again

She says that making love
Is the most pretty thing
But I just wanna fuck
And make her feel insane
