For what it's worth, I never felt that much  
Unresolved waste of time a lesson never learned  
Wanted to forget it, but it's hard when you've been  
burned  
And a matter of time till you're lost insides are  
reassured to start indulging

Like there's nothing left behind your pretty face  
And it's all that you've got now  
No it wasn't much, it was nothing but it left you wanting  
more  
And it's all that you've got now

Can sometimes get lost in the feelings that don't exist  
Addiction is a cancer and a means to justify  
An empty life of running from the friends you've left  
behind  
And a matter of time till you're dark insides are  
reassured to start indulging

Like there's nothing left to hide your pretty face  
And it's all that you've got now  
No it wasn't much it was nothing but it left you wanting  
more  
And it's all that you've got now

The mechanics of guilty eyes  
Being tempted is in our make up  
When indulgences collide  
Come and sleep with me tonight

When it's all that you've got now  
But it wasn't much it was nothing, but it left you wanting  
more  
And it's all that you've got now  
But it wasn't much
