All Eyes on the system placed before you. no time for an explanation.

Deceitful, why we dancing if you listen close enough

doesn't it feel, like a broken record.

Slicing through the skin
the sound has been over played and overrated

but the dance shop takes a long time dont it we go round and round. forget the heart, the life, the sting, the stage, the sound.

we go all round, this way I quess the powers that we will see it's time to make, our dicision and if you listen close enough.

doesn't it feel, like a broken record.

Slicing through the skin
the sound has been over played and overrated
and do I excist to satisfy you
and satisfy nothing
Im right here and I hoping to be something,
to mean something to somebody at all.

but it's the same old song, one dance with the same old song.

same old song, same old song, same old song, it's the same old song, same old song, same old song, it's the same old song

doesn't it feel like a broken record, a broken record. I excist to satisfy you to satisfy nothing. fear stares the wrong ways. but right know Im hoping to be something to mean someting to somebody at all. but it's same old song
