Last night when I woke up, darkness surroundin  
Everything is so far away from me  
and my legs are snippy  
It's just 2.30  
Sittin down here, lookin at the sky baby  
The winter's goin by  
Miss u I just cry the pain inside

Yea  
Sometimes I wonder why porque mi mami created me,  
I'm a girl  
She brought me to this world  
And sometimes I hate myself why don't take a risk?  
Just bcuz u're not really there when I'm scared  
Think bout the time when you lie here next to me  
U know you're the one set me free  
Without you no I'm no longer pleased  
You and me baby  
What they're about to see  
Because of you I had learnt not to hate  
If only you knew how I fear with out you  
I feel like no one cares bout anything  
Now I just feel my life's about to begin

I could find the way to the end of day  
Untill u here with me oh baby  
Open arms you take the tears away  
Keep me out of gray walkin in the pinky way  
you take me

I could find the way to the end of day  
Untill u here with me oh baby  
Open arms you take the tears away  
Keep me out of gray walkin in the pinky way  
you take me

Huh it's so hard to know how life can be  
Sometimes something turns around and bites me  
Feel like everyone's goin' to betray me  
Thanks cha mama then I got you beside me  
You see it's not easy

I just want you to be my homie  
My number 1 homie that's what I'm tellin u  
Everything you do  
Everytime you try to make me laugh  
don't hasty baby we'll wait for the day  
When I can see u and u can see me  
We holdin hands walkin in the same way 1 road 1 route  
Like we always think about when we were separate  
Always dreamt about when we were far away  
Won't you be right here?  
Or won't you come make me cry  
Won't you hold me tight?  
Or won't you just leave me die

I could find the way to the end of day  
Untill u here with me oh baby  
Open arms you take the tears away  
Keep me out of gray walkin in the pinky way  
you take me

I could find the way to the end of day  
Untill u here with me oh baby  
Open arms you take the tears away  
Keep me out of gray walkin in the pinky way  
you take me
