"How To Neglect Your Heart"

Visit "[How To Neglect Your Heart](#)" on MotoLyrics.com

The laugh at me
Iâ´m all alone
The question me
In jagged tones

The try to tell me what's true
And what's not true
As if they knew
As if they knew

They tell me how to feel
They tell me what I'm worth
They tell me how I failed
All in their own words

The tell me how to love
And how to get along
Passion's all right
As long as it's not too strong

Here's how you play the game
Here's how you play your part
Here's how you go along
Here's how to neglect your heart

Fixed life
Like the stars
Never moving
Never far
