"Winter '79"

Visit "[Winter '79](#)" on MotoLyrics.com

Each October the clouds get darker than before.
And the winter left us quietly in '79.
We built a snowman in my family's front yard
With a carrot nose, and button eyes, my brother
knocked it down.

If it's only evidence you want,
evidence you..

Pull out the cuffs old officer, don't waste their time
This interrogation's flattering to no one's mother
divine.
Delegate the responsibilities you shirked
Someone's gonna, someone's got to do the dirty work.

If it's only evidence you want,
evidence you..
