A song by a band called MAX from their album called "Silence Running" on which Sinead sings background vocals.

-----

This used to be a lonely place  
now it's morning time  
And it was the only place  
morning time  
Then Mary paid off the angel so that  
it's morning time  
he night stops right here and know that  
morning time

one thousand pictures  
they come down the roadway  
they're gold and they're black  
like a motor cycle  
Helen and Mary are carrying flames  
for the wild fire, for the wild fire  
just get away from your tears  
what you got is already and spoken for  
over your shoulder they still want some revenge  
as you know as you know  
you seen that you got that  
morning time  
morning time  
morning time  
morning time  
morning time  
morning time  
morning time  
morning time

move it out move it out  
he was a gun runner  
took all his money to a better place  
cool air it blows through your window  
you turn for the same thing  
for the same thing  
outside there's all kind of ways you can travel  
breaks over here

breaks over there  
you get there now and you get there quick  
from the sun breaks  
and the low run  
then you climb on  
then you climb on  
this was a lonely place  
now it's morning time  
and it was the only place  
morning time  
then Mary paid off the angel so that  
it's morning time  
the night stops right here know that  
morning time  
morning time  
morning time  
you get that  
you seen that  
you want that  
you need that  
you got that  
you want that  
you seen that  
you need that  
Helen and Mary  
Helen and Mary  
Helen and Mary  
Helen and Mary  
I just got to get to you now  
I just got to get to you now  
I just got to get to you now  
I just got to get to you now  
this morning time
