Young woman with a drink in her hand  
She like to listen to rock and roll  
She moves with the music  
'Cause it never gets old  
It's the only thing  
That never gets old

Young man in a quiet place  
Got a hawk on his arm  
He loves that bird  
Never does no harm  
It's the only thing  
That never can do no harm  
Must be the only thing  
That never can do no harm

Sun setting on the avenue  
Everyone walks by  
They live their life under cover  
Being blind  
Being blind  
Being blind
