Will you ever get enough  
Of twilight colour  
Dawn and dusk  
That falls upon the crowded street  
Where the traffic light runs deep  
Deeper  
Deeper  
This place is yours  
is yours my brave  
The place you choose to go

When twilight shine  
Through this time  
Through this time  
See the twilight shine  
Through this time  
Through this time  
Through this time

When the midnight calls us here  
Signs are buzzin' everywhere  
Like the towers open face  
Like the sky is out of place  
And right there where the lovers meet  
And feel the ground's beneath their feet  
The window's lit  
The streets are high  
50 miles of light

When twilight shine  
Through this time  
Through this time  
See the twilight shine  
Through this time  
Through this time  
Yeah the twilight shine  
Through this time  
Through this time  
See the twilight shine  
Through this time  
Through this time

And in the room where the lovers meet  
They look out and they can see  
Over 50 miles of city, yeah  
Over 50 miles of bright light  
Moving out across the night  
Better hurry it's twilight, hey  
Better move it to twilight
