"When 2000 Comes"

Visit "[When 2000 Comes](#)" on MotoLyrics.com

Oh I know that life is hard enough for you yo live
(without me)
You deserve to get all the things, That you give (to me)

You see, I'm tryin to figure out what I need
I'm tired of making your heart bleed
Lets face it - some people just aren't cut out for this

I'v never felt a love deeper
But this mountain just gets steeper
You know what I can't give, But I can commit to this

(chorus)
When 2000 comes I'll be ready then for you
I'll be ready for the sweet love you had in mind
When 2000 comes I'll be waiting here for you
I'll be waiting with a sky full of space and time for you

I'm an ordinary girl, with a screwed up mind
(you know the kind)
Condescending words aren't my way, I'm just trying to
find an answer for you

You see, somebody else is gonna love you
You see that I only need you
Theres something twisted here thats stranger then fate

They say the world will get better
But without you, Hey what would it matter
I dont need to here no new age crap about love

(chorus)
When 2000 comes I'll be ready then for you
I'll be ready for the sweet love you had in mind
When 2000 comes I'll be waiting here for you
I'll be waiting with a sky full of space and time for you

Before I walk away can you really say your gonna miss
me?
(i'm gonna miss you yeahh)
Its time to face that we're better off for now, just let go

(chorus)

When 2000 comes I'll be ready then for you
I'll be ready for the sweet love you had in mind
When 2000 comes I'll be waiting here for you
I'll be waiting with a sky full of space and time for you
(x2)

Somebody else is gonna love you
You see that I only need you
Theres something twisted here thats stranger then fate

They say the world will get better
But without you, Hey what would it matter
I dont need to hear no new age crap about love

(chorus)

When 2000 comes I'll be ready then for you
I'll be ready for the sweet love you had in mind
When 2000 comes I'll be waiting here for you
I'll be waiting with a sky full of space and time for you
(x6)
