Entering into a world darkness
I hesitate even though there is no other way
To bring you back to me

Even in death, you have never left me
The sacrifice of another
Sends me soaring into the afterworld

In search for you I encounter Cyane
I go astray to make amends for slaughtering
The young and innocent

They've closed the gates of eternity
And sent the enslaved souls
To wander helplessly into the nothingness

An evil force lies waiting there
Alti casts her spell and closes in
Bonded by death to defeat her
Leave the prison of our bodies
Have our souls unite as one and

Strike the demons
Make them pay
Drain her power
The sin trade

The shaman's chanting furiously
She does the dance of the spirits
And commands them to possess the lifeless ones

Begin the clash between good and evil
We'll overcome and the last thing
You will hear me say is, "I have many skills"

An evil force lies waiting there
Alti casts her spell and closes in
Bonded by death to defeat her
Leave the prison of our bodies
Have our souls unite as one and

Strike the demons

Make them pay
Drain her power
The sin trade
