[Chorus]

Warriors...Come out and Play!

Warriors...Come out and Play!

[Verse 1]

Yo, come along this way, it's Burning Star all night all day

I'll put my vibes on play and never stop until they say "

Ok Ok Ok..

Ok, Ok, Ok, those Words you say are true in fact

But don't delay talking that, the reasons why we co-created

Burning Star

We walk like Warriors, in Babylon my word is Bond

I know we've gone this far, but still we have to keep it on

Your word is Bond, Right or Wrong, they bring the War, we bring the calm

Just like a Storm, we rain Supreme, this ain't a dream although it seems..

[Chorus]

Warriors...Come out and Play!

Warriors...Come out and Play!

[Verse 2]

We intrigue all those who never discipline their deeds

And the chosen are few, so it's our destiny to lead

In physical form, we storm this world of conviction

We Love the Righteous and Poor and keep our lessons non-fiction

so listen and heed, you must build like a Slave

To live like a King, in these lands of the Brave

Where the Warriors run, not from Fear or from Gun

But from the call of their Spirit, ever chasin' the Sun!

[Chorus]

Warriors...Come out and Play!

Warriors...Come out and Play!
