This reign's everywhere  
Humanity is blind  
There is only one way for saving their souls

This reign's everywhere  
Humanity is blind  
There is only one way for saving their souls

Don't forget about  
Your pride, your minds  
This is your strength  
And your defense  
From enslaving

Don't forget about  
Your pride, your minds  
This is your strength  
And your defense  
From enslaving

You wound his reason  
You can win this fight  
It's just defending  
It's not murder

You wound his reason  
You can win this fight  
It's just defending  
And you save your heart

Freedom is not so far  
You need to make one step

You must destruct your doubts  
And take your independence  
Forget about fear  
And go forward

Hear my order  
And now just follow me  
Hear my order

This voice provides  
To you the strength  
Order  
This voice provides  
To you the strength  
Order  
It's not heresy

Use the power of the flame  
It's your weapon in battle  
Against the divine word

Use the power of the flame  
Against the divine word

Fetters have fallen  
The eyes have opened  
And this is new page of the fair age

You have strong kingdom  
You have bold army  
This is courageous act, that will be pride

God, I ask you to  
Stop, you have to give  
Up, and leave post of lord  
For the peace

God, I ask you to  
Stop, you have to give  
Up, and leave post of lord  
For the peace
