Lyrics:

You've tasted bitter defeat and sweet success
You want it all and you settle for nothing less
You've tried harder than the rest
You've become one of the best
This is the time you'll remember for all your life

Forever friends
In harmony
As the whole world joins and sees
Days of unity and peace

Forever through the years
We'll hear the cheers
Joy and laughter everywhere
We're together here to share
Forever friends

You'll meet all races, see faces you've never seen
People from parts of the world where you've never
been
And you'll feel it in your heart
We spent too much time apart
This is the time when all dreams of man come alive

Forever friends
In harmony
As the whole world joins and sees
Days of unity and peace

Forever through the years
We'll hear the cheers
Joy and laughter everywhere
We're together here to share
Forever friends

No matter where we are or go
No matter what we hope for or know
No matter how we word our prayer
There is a dream we share

Forever friends
In harmony
As the whole world joins and sees
Days of unity and peace

Forever through the years
We'll hear the cheers
Joy and laughter everywhere
We're together here to share

One world, one dream
Forever friends
In harmony

Forever friends
