"Note To Self"

Visit "[Note To Self](#)" on MotoLyrics.com

You wanna run further than you ever have before
You wanna fly higher than you ever tried
And boy you wanna feel something that is so real
You're not sure you wanna know if you have anything to
show
And note to self don't wait too long
Note to self don't wait too long
You wanna climb over to the other side
You wanna fight for something to believe in and more
You wanna dream your living in the old scene
And boy, you wanna love if love is all you ever need
Note to self don't wait too long
Note to self don't wait too long
Note to self don't wait too long
Note to myself don't wait too long
Note to myself don't wait too long
Note to myself don't wait too long
Note to self don't wait too long
