"Anywhere"

Visit "[Anywhere](#)" on MotoLyrics.com

Let's all start again
You are shining through your eyes
We don't have much time
Take my hand and run run run

We can go anywhere tonight
We can be whatever we dream
Just stay this time for us
Let's take it slow, let me break your fall

We are powerful, conquerors
Of our minds and souls
Let's be aware of how we would
Fly higher than anyone could

We can go anywhere tonight
We can be whatever we dream
Just stay this time for us
Let's take it slow, let me break your fall

Just say what's on your mind
And we'll go
