"Chasing Time"

Visit "[Chasing Time](#)" on MotoLyrics.com

Here we start
With my broken stars in parts
Hear it rains
In lights of gray, yet still I stay

With my heart in hand

Believe in me as you are
Trust your heart
Suffice in my love, loose your mind
Chasing time, chasing time

Before my eyes fade
As my walls, come crashing into me
That moment where your smile
Crosses mine

With my heart in hand

This might take some time
Your hand in mine
Can't do this without
So stay by my side

Believe in me as you are
Trust your heart, trust your heart
