I'm all tied up  
and I'm trying my best to get down  
come on girl  
come around, come around

I'll wait up all night just to see you move  
and for the past few days  
I've been doing my best to move on  
baby baby shake it up and come along  
lets take a ride and forget this town tonight  
late night  
bring back the heat some more  
what's right  
i don't know what I'm waiting for  
it takes all that i have  
just to move along  
it takes all that i have  
it takes all that i have  
last call  
that's what i said tonight  
passed out  
lose control in the fading light  
so many nights spent with you in the beginning  
it takes a while getting used to having nothing  
i would give all i have  
just to be what you need  
until the end  
I'd give myself to be and to hold you close again  
I'm all tied up  
and I'm trying my best to get down  
come on girl  
come around, come around  
I'll wait up all night just to see you move  
(see you move)  
and for the past few days  
I've been doing my best to move on  
baby baby shake it up and come along  
lets take a ride and forget this town tonight  
exposed and you're my weakness  
I'll take this day by day  
exposed and you're my weakness  
there's nothing left for me

exposed and you're my weakness  
I'll take this day by day  
exposed and you're my weakness  
for loss of words to say  
I'm all tied up  
and I'm trying my best to get down  
come on girl  
come around, come around  
I'll wait up all night just to see you move  
(see you move)  
and for the past few days  
I've been doing my best to move on  
baby baby shake it up and come along  
lets take a ride and forget this town tonight  
what goes around comes around in the end  
it takes you down and you're never gonna stop it
