Show me who we are today, cause I'd like to say  
That I think we're falling out  
Run down in the pouring rain, and I can't complain  
But I'm tired, oh yeah, and I've tried  
Far too many times

There's been just a couple things,  
And I'd like to bring the attention to the crowd  
The way that your tongue creates all the brilliant lies  
But besides those eyes, there's not much you can hide

Light it up, tear it down  
These walls are still burning  
Pull you close, call me out  
I'm losing control  
You were mine, and now you're gone  
I know I've got to give in  
So hear me out,  
I'm feeling fine, but I just want you to know  
You're not alone

I pretend that I like the way  
That your promises never seem to stay  
I realize we can compromise  
But you never will  
And my head starts to drop  
Cause there's somethings that we should talk about  
Before we cut each other out

I'm trying to figure out  
Where do we go

Light it up, tear it down  
These walls are still burning  
Pull you close, call me out  
I'm losing control  
You were mine, and now you're gone  
I know I've got to give in  
So hear me out,  
I'm feeling fine, but I just want you to know  
You're not alone

I'm trying to figure out  
Where do we go from here  
I'm tired of burning out  
I'm burning out

Light it up, tear it down  
These walls are still burning  
Pull you close, call me out  
I'm losing control

Light it up, tear it down  
These walls are still burning  
Pull you close, call me out  
I'm losing control  
You were mine, and now you're gone  
I know I've got to give in  
So hear me out,  
I'm feeling fine, but I just want you to know  
You're not alone  
I just want you to know  
You're not alone  
I just want you to know  
You're not alone
