Tomorrow brings enchanting moments  
A brand new day of inspiration  
Like a river flows, to where our dreams unfold  
This feeling is never like before, a new beginning for  
all

Chorus:

Let us celebrate this moment, a brand new day awaits  
Let us reach out for our dreams out there  
Moments of magic we will share  
Let us celebrate this moment, a brand new day awaits  
We will always be, a city of friends  
Time will bring for us to share  
Moments of magic

Time brings new hopes for us to move on  
There's more to treasure as we go on  
The world is our stage, let us find a way  
Moving into a different time where horizon shines

( Repeat Chorus x 2 )
