It's Saturday night and snow hits my windshield  
Going north on 494  
My hair is a mess  
The radio station  
Is drowning out the sounds of the car  
I know this is it  
How did I get here?  
For seven years they watched me drown  
I know this is it  
I think I'll keep going  
So don't let me turn around

Hold your tongue tonight  
And put your money where your mouth is  
You fooled me and I  
Believe everything you're telling me

Let's take a step back and go through the motions  
Leading up the path that I'm on  
What if I'm wrong, I know that I meant well  
At least my head was clear all along

Don't run away, don't turn around  
Until you're sure about everything  
Don't run away, don't turn around  
Unless you know how it's gonna be

Hold your tongue tonight  
And put your money where your mouth is  
You fooled me and I  
Believe everything you're telling me

Hold your tongue tonight  
And put your money where your mouth is  
You fooled me and I  
Believe everything you're telling me

Don't run away, don't turn around, don't let me go  
Don't run away, don't turn around, don't let me go  
Don't run away, don't turn around, don't let me go  
Don't run away, don't turn around, don't let me go

Hold your tongue tonight  
And put your money where your mouth is  
You fooled me and I  
Believe everything you're telling me

Hold your tongue tonight  
And put your money where your mouth is  
You fooled me and I  
Believe everything you're telling me
