

## Sing It Loud

### "The Magic Is You"

Visit "[The Magic Is You](#)" on MotoLyrics.com

Ever since we came to be, you were always there for  
me  
I hear you breathe I see you smile  
You have made our lives worthwhile  
It's your warmth your beautiful touch  
It makes me remember so much  
Of the pleasure I treasure, so love on we must

Chorus:

No matter when, no matter where you may go  
You know my heart will always stay  
For you are here, I know you always will be  
It's all because the magic is you

We've had dreams they seemed unreal  
We've had hope they gave us zeal  
But dreams came true and hopes unfurled  
My island's grown into a world  
They've been days of laughter and pain  
But family and friends will remain  
We have grown here together, let's keep it that way

( Repeat Chorus )
