SOLO 1

Many years have gone
That we've been missing the road
Many people have died
many have lost their loved ones
Lord, we cry unto You
Nigeria is for You
Come and lead our leaders
'cos You never slumber

CHORUS

Lord Nigeria is for You
Let Your love come down
Let there be unity
Lord let us fear You
Let us remember the poor
Let the rich help them
Make Nigeria oh Lord
Worth living again

Solo 2

Who can we call our God
If You turn away
From our side?
You are the Lord of our nation
Make this nation Your dwelling place

We depend on You, Lord
For prosperity
There is nobody
Just like You
Lord, hear our cry
There is no place like home
A peace of mind everywhere
This is our message to You
Oh Lord

chorus (till fade)
