"Who Knows Best"

Let's just not worry for a minute
Do you see your elders round the corners
When you seek your pleasures

Are their eyes on you

Sunny eyes do you need a lift?
Paths to lay your afternoon on
Clouds to sit your lungs on
Measures for your wrongs

Well babe I got a gift
'Cause who knows who knows best
Let's not worry for a bit
'Cause who knows who knows best

Let's just not worry
Take a seat
Take a sip
Take a dip

'Cause babe I got a gift
'Cause who knows who knows best
Let's not worry for a bit
'Cause who knows who knows best

Release me now
We have been gone to long
It seems to me
We've all been here so long
