I got you wrapped around my finger,
I made a shape with my hand that will never last,
I got the message we didn't have a thing,
You look at me when you bite your lip,
Your hands move down your leg,
There's nothing wrong with that but it's only for me,

(Chorus)

It almost feels like I'm gone,
No one left to care, no one no one left to,
Leave me gasping for air
On on the eve of the day I'll leave to find her someday
Or someday, I'll be there.

You float around waiting patient,
It's like you're a sleeper,
You got the message, we didn't have a thing,
So, I'll hold you back,
You wont be seeing me,

(Chorus)

It almost feels like I'm gone,
No one left to care, no one no one left to,
Leave me gasping for air
On on the eve of the day I'll leave to find her someday
Or someday, I'll be there.

Bridge

You wear those heels high,
I think you're going crazy,
So you slip those boots on...
I think that's, a bit more crazy...
You want it your way,
That's still nothing changing,
You get it your way,
Now I'm thinking, I should change this,

(Chorus)

It almost feels like I'm gone,
No one left to care, no one no one left to,
Leave me gasping for air

On on the eve of the day I'll leave to find her someway
Or someday, I'll be there.
