DO IT

Don't activate the hate side of mine

Look at the pain in my eyes

You wanna clue so fuck you

You wanna blast gonna take a stand

Jack

Jump Jill or take a pill

Kill

Everybody gonna make 'em think twice

Just check in the distance

For the stars that are in your eyes

Do it

The street is calling my name

A hard knock to the brain

The world means nothing to me

So

If you can see what you want to be

Go

Run scared gonna make them see

Do it

No matter what you can do

You got the weight of the truth

It's weighing heavy on you

In the year of the underdog

You are the star

In the year of the underdog

You are a star

But you're gonna have to

Activate and Motivate

Activate and Motivate

Do it

Activate and motivate

Activate and motivate

Do it (repeat)

Now all my circuits are dead

And everything seems cool

I'm living out my pain

So

Wanna blast gotta be the best

Yeah

Take a stand

Make them understand

Do it  
Dreamer you're seeing red  
You gotta live in your head  
You only know what you're fed  
In the year of the underdog  
You are the star  
In the year of the underdog  
You are a star  
But you're gonna have to  
Activate and Motivate  
Activate and Motivate  
Do it  
Activate and motivate  
Activate and motivate  
Do it (repeat)  
In the year of the underdog  
You are the star  
In the year of the underdog  
You are a star  
(repeat)  
But you're gonna have to  
Activate and Motivate  
Activate and Motivate  
Do it  
Activate and motivate  
Activate and motivate  
Do it (repeat)
